

LTU double diploma marking procedure

Instruction for this year regarding the double diploma from Toulouse, in particular point 3.

1. Students should send a recto-verso (2 pages) summary of their project (e.g; background, method(s), major result(s), conclusion(s)) before the 16th September to spacemaster@irap.omp.eu. This will be taken into account in the marking.
2. Students should send the FINAL version of their thesis (PDF) with target date 16th September 2017 or earlier if possible to natalie.webb@irap.omp.eu and awalters@irap.omp.eu. If the file is too big to send by email, please send a link for the download instead. There are no specific requirements for UPS other than those asked for by LTU.
3. The thesis and recto-verso will NOT be accepted after the 23rd September 2017 unless accompanied by a letter from the internship supervisor stating that the work was unavoidably delayed. If you do not respect this stipulation you will NOT receive the double diploma from Toulouse.
4. Students must submit us their thesis even in exceptional circumstances before the end of September since once the list for this academic year is closed by our administration (around the first week of October) there will be NO possibility to obtain the double diploma from Toulouse.
5. For students who are awarded the diploma from Toulouse, information will be sent in the first quarter of 2018 on how to get the certificate (not before). Certificates are printed at national level and we can do nothing to speed up the process (except regularly complaining).

These rules are necessary because of the timetable imposed on us by the administration and to allow us the time to read your thesis in depth.
